

MINUTES

Regular Chapter Meeting
June 2, 2011

Sign in and Attendance

25 in attendance

Introductions, Committee Reports, Discussions

Minutes approved.

Chapter account balance announced. (Awaiting invoice from ICC).

Jessica Steely, Semmes and Company, and current President of SLO Green Build was introduced and gave a brief promotion of SLO Green Build. It was mentioned next mid-cycle 2010 Code Amendments room additions and commercial improvements will be affected by the Green Code.

Fred Schott discussed SWPPP and the requirements directed at Plans Examiners that do grading plans. A bill is being presented, AB1210 which would prohibit the State's SWRCB from violating the Engineer's Act. Basically a set of grading plans must be signed by a Civil Engineer as to not violate the Engineer's Act. Elizabeth will forward the information of AB1210 to the Chapter members.

Howie gave a brief promotion of the June 13th and 14th CASp training opportunity in Santa Maria. The first day will cover Chapter 11A and information on the CASp exam. The second day will cover 11B. Further Howie and Dan Kaiser will be offering the same training for the next couple years to assist with the 2014 CASp Certification requirements presented to all Jurisdictions. CEU's will be given with this training.

The Chapter will be sponsoring a training opportunity September 21st. It will also be in Santa Maria at the Munami Community Center, 600 W. Enos Dr. The training will be on the 2009 IBC significant changes. It will be taught by Dan Kaiser as well, so it will contain the CBC information for us.

Fred Schott's Lateral Force/ Load Path Presentation
