

## **AGENDA**

Regular Chapter Meeting  
October 6, 2011

---

### **8:00 am- Self-Introductions**

#### **1. Acceptance of the September meeting minutes**

#### **2. Inspection/ Plan Check Questions**

#### **3. Discussion Topic- 2010 CRC Conventional Construction**

Are jurisdictions finding that plans are being submitted that are designed using the specific provisions of the 2010 CRC? Are jurisdictions using the CRC for review of plans for conventional construction?

#### **4. Discussion- Chapter Lunch:** In the past, the Chapter has provided for a lunch event at Margie's to coincide with new officer initiations. We typically invited more employees from each jurisdiction to attend, and the chapter picked up the tab. It was often the largest crowd of the year, likely because it is a noontime event, and the chapter bought.

Would the group like to consider reestablishing this long standing tradition?

#### **5. Upcoming Training Update and Discussion- Howie Conroy**

### **9:00 am Speaker- Turko Semmes, Semmes & Co. Builders Inc.**

Topic: Straw Bale Structures and Code Compliance

**Closing comments/ Adjourn**
