

## Efficiency Division Updates

- Business meetings
  - July 13, 2022
    - Approval of local ordinances for City of Encinitas, City of Solano Beach, City of Emeryville, and City of Half Moon Bay
  - Next business meeting is August 10. [Business Meetings agendas and minutes](#).
    - Possible approval of local ordinances for City of Santa Clara and County of Santa Clara
- [Enforcement advisory](#): mechanical systems acceptance testing in nonresidential projects permitted on or after October 1, 2021 and lighting controls acceptance testing in nonresidential projects permitted on or after July 2014 must be done by certified acceptance test technicians. Check the [2019 Inspector's Field Sheet](#) for certificate of acceptance format and triggers for mechanical and lighting systems acceptance testing.
- The [California Electric Home Program \(CalEHP\)](#) updated content, including questions and answers from the June 28 pre-application workshop
- [Home Builder Heat Pump Water Heater Forum](#) on August 18 held by the Advanced Water Heating Initiative and EPA on heat pump water heaters in new construction
- [Blueprint 138 April – June 2022](#) now available
- [2022 Energy Code webpage](#) updated with approved documents and compliance software
- The [California Automated Permit Processing \(CalAPP\) Program](#) which provides grants to local jurisdictions for online solar permitting posted a Notice of Proposed Awards (NOPA) list and revised application form

## Energy Code Training and Events

- [Energy Commission training](#)
  - August 3, 10, 17, 24, 31: City of Los Angeles 2022 Energy Code Changes trainings
  - August 5: CALBO BOLA presentation 2022 Energy Code updates
  - August 16, 23, 30: City of Long Beach 2022 Energy Code What's New trainings
- [Energy Code Ace training](#)
- [PG&E training](#)
- [SoCal Gas education](#)
- [3C-REN trainings](#)
- [Local Energy Code resources](#)

## Energy Code Resources

- [Online Resource Center](#)
- [Energy Standards Hotline email](#) or call 800-772-3300

# Home Builder Heat Pump Water Heater Forum

**August 18**  
10 am-12 pm  
Pacific

Heat Pump Water Heaters (HPWH) are gaining rapid market share as consumer awareness grows and many states and municipalities look to decarbonize through efficient electrification mandates and incentives.

Join the Advanced Water Heating Initiative and EPA for a roundtable discussion on heat pump water heaters in new construction. This discussion will offer home builders and heat pump water heater manufacturers a chance to connect and explore the opportunities and challenges of HPWHs and better coordinate on improved installer training, supply chain, customer messaging, energy modeling and technical support.

Add your voice to help national organizations understand what information and support builders need to deploy this new technology.
